

FAIZAN AHMED

Flutter Developer | Cross-Platform Mobile App Engineer

House no 499 Street 12 Munawar colony, Rawalpindi, Pakistan | +923342111283 | muhammadfaizanahmed62@gmail.com

PROFESSIONAL SUMMARY

Results-driven Senior Flutter Developer with 4+ years of professional experience building scalable, high-performance cross-platform mobile applications for Android and iOS platforms. Specialized in developing production-level Flutter applications with modern responsive UI, clean architecture, advanced state management, and optimized performance. Experienced in handling complete mobile app lifecycles including UI/UX implementation, backend integration, Firebase services, REST APIs, app deployment, maintenance, performance optimization, and live production management. Successfully managed and maintained multiple live applications with strong user engagement and high Play Store downloads while executing updates, bug fixing, feature enhancements, analytics monitoring, and advertisement integrations. Passionate about delivering premium user experiences through clean code, scalable architecture, and modern mobile development practices.

PROFESSIONAL EXPERIENCE

Senior Flutter Developer — Freelance & Remote Projects — Upwork | Fiverr | Direct International Clients | 2021 – Present

- Developed and deployed scalable Flutter applications for Android and iOS platforms across industries including e-commerce, booking, delivery, finance, business management, and real-time communication systems.
- Built modern pixel-perfect responsive user interfaces from Figma and Adobe XD designs while maintaining high UI/UX standards and smooth user experiences.
- Integrated RESTful APIs, Firebase services, authentication systems, cloud databases, payment gateways, push notifications, and real-time application features.
- Implemented advanced state management solutions using GetX, Provider, Riverpod, and Bloc for scalable and maintainable application architectures.
- Developed reusable custom widgets and modular application structures to improve code maintainability and development efficiency.
- Optimized application performance by minimizing widget rebuilds, improving rendering efficiency, reducing API latency, and enhancing overall responsiveness.
- Managed and maintained multiple live production applications with thousands of Play Store downloads and active users.
- Performed regular application updates, bug fixing, feature enhancements, performance optimization, and long-term app maintenance.
- Integrated and managed advertisement systems including Google AdMob to improve application monetization and user engagement.
- Successfully collaborated with international clients and handled complete application lifecycles from planning and development to deployment and post-launch maintenance.

Flutter Front-End Developer — Grace Technology — 2022 – 2024

- Designed and developed modern Flutter user interfaces for cross-platform mobile applications with focus on responsiveness and clean architecture.
- Converted complex Figma and Adobe XD designs into production-ready Flutter screens while maintaining design consistency and performance.
- Collaborated closely with backend teams to integrate REST APIs, Firebase services, and dynamic application features.
- Developed reusable UI components and scalable widget structures to improve development workflows and application consistency.
- Improved application performance and rendering efficiency through optimized widget management and state handling techniques.
- Assisted in application testing, debugging, deployment, and maintenance for live production applications.
- Worked on feature enhancements, UI improvements, and production-level application optimization.

EDUCATION

Bachelor of Science in Computer Science (BSCS) — University of Engineering & Technology (UET) Taxila — Taxila, Pakistan — Sep 2022

ADDITIONAL INFORMATION

- Strong understanding of software development life cycle (SDLC)
- Experience handling complete production-level mobile applications independently
- Expertise in app maintenance, scaling, and long-term production support
- Experience working with international remote clients and teams
- Strong debugging, optimization, and problem-solving skills
- Passionate about building scalable, high-performance mobile applications with modern UI/UX principles

TECHNICAL SKILLS

Mobile Development

- Flutter
- Dart
- Android Development
- iOS Development
- Cross-Platform Mobile Applications

Backend & APIs

- RESTful APIs
- Firebase Authentication
- Cloud Firestore
- Firebase Realtime Database
- Push Notifications (FCM)
- Payment Gateway Integration
- JSON & API Parsing

Architecture & UI/UX

- Clean Architecture
- MVC / MVVM
- Responsive UI Design
- Pixel-Perfect UI Development
- Reusable Widget Architecture
- Custom Animations

Database & Local Storage

- SQLite
- Hive
- Shared Preferences
- Local Storage Management

Deployment & Optimization

- Google Play Store Deployment
- App Store Deployment
- App Maintenance & Scaling
- Performance Optimization
- Debugging & Crash Fixing
- Google AdMob Integration
- Application Monitoring & Updates

Tools & Platforms

- Git & GitHub
- Postman
- VS Code
- Android Studio
- Xcode
- Figma

CERTIFICATIONS

- Flutter Mobile App Development
- Firebase & Backend Integration
- REST API Integration & State Management
